Repairs, in the order made
First calibration of the radiation
−20.0 K or more, off the scale
Cloud water counted in pressure terms
+2.30 K
Convective cover per Earth day
+1.76 K
Sun clock and tilt, with the split refitted
+0.59 K
Curved air, first channels
−0.65 K
CO₂ and O₂ bands, first channels
−2.23 K
Sensitivity tests
Longwave by height with ice optics
+11.50 K
Cloud water at the full-column bound
−3.21 K
Thinner convective cloud
+1.71 K
More low cloud
−4.98 K
General repair
Method, lunar table
Calibration
Two classes in one step
Earth-tuned setting varied
