Geometry and column
PlaSim's horizon air mass, 35: right here
Venus
Titan
Breathable Moon
(1.2 and 1.0 atm)
Mars at 1 bar
Earth
Earth's column:
the broadband fits' range
Mars
Mass per unit area, relative to Earth's
Scale height over radius, H/R
Day and gravity
Earth
Venus
slowly rotating
Earth-like planets
Mars, present and at 1 bar
Breathable Moon
Titan
PlaSim's per-day
formulas right
Surface gravity (m s⁻²)
Solar day (Earth days)
